MATERIAL SAFETY DATA SHEET

SECTION 1: PRODUCT IDENTIFICATION AND USE

Product Name: SDP Ultimate Plate Cleaner
Product Identification Number (PIN):
Formula: Aqueous Mixture
Manufacturer / Supplier: Mitsubishi Imaging (MPM), Inc. - 555 Theodore Fremd Avenue - Rye, NY 10580
Emergency Telephone Number: Chemtrec (800) 424-9300 Outside USA (703) 527-3887

SECTION 3: HAZARDOUS IDENTIFICATION

EMERGENCY OVERVIEW
White color liquid mixture, with a mild petroleum odor. Flash point 71°C (SCC). Contact with liquid may cause eye and skin irritation. Overexposure may cause nose, throat and respiratory tract irritation. Inhalation and ingestion may cause respiratory and digestive tract irritation, central nervous system depression characterized by headache, nausea, vomiting, dizziness, shortness of breath, narcosis, drowsiness, respiratory failure, and coma. Target organs: Central nervous system, lung, kidney, spleen, and liver damage.

POTENTIAL HEALTH EFFECTS

Eye Contact: May cause eye irritation, stinging, tearing, redness and swelling
Skin Contact: May cause skin irritation. Prolonged or repeated liquid contact can result in defatting, cracking, burning, and drying of the skin which may result in skin irritation and dermatitis. Skin absorption is possible and skin contact may be harmful.
Ingestion: Single dose oral toxicity is moderate. Swallowing large amounts may cause gastric irritation and abdominal spasms, and acidosis.
Inhalation: Short term inhalation toxicity is moderate. Exposure may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits.

Carcinogenicity: NTP: N/A IARC Monographs: N/A OSHA Regulated: N/A
None of the chemicals used in this product are listed on NTP, IARC or OSHA listings of human carcinogens.

Other Health Hazards: Over exposure to this product has been suggested as a cause of the following effects in laboratory animals, and may aggravate pre-existing disorders of these organs in humans: mild, reversible liver effects blood abnormalities, cardiac sensitization, liver abnormalities, cataracts, and kidney damage. Reports have associated repeated and prolonged occupational over exposure to solvents with permanent brain and nervous system damage (sometimes referred to as painter's syndrome). Intentional misuse by deliberately concentrating and inhaling this product may be harmful or fatal.

SECTION 4: FIRST AID MEASURES

Eye: Immediately flush eyes with water. After initial flushing, remove contact lenses and continue flushing for at least an additional 5 minutes. If irritation persists, contact physician.
Skin: Wash the exposed area thoroughly with flowing water. Remove contaminated clothing. Contact physician if irritation develops or persists.
Ingestion: Give two glasses of water and induce vomiting. Obtain prompt medical attention.
Inhalation: Remove to fresh air. If breathing is difficult, administer oxygen. If breathing has stopped, give artificial respiration. Get medical attention

SECTION 5: FIRE FIGHTING MEASURES

Flammable Properties: 71°C (SCC)
Flammable Limit: None LEL: N/A UEL: N/A
Extinguishing Media: Water, carbon dioxide and dry chemical
Special Fire Fighting Procedures: Evacuate personnel to a safe area. Firefighters should wear self-contained breathing apparatus and full protective clothing.
Unusual Fire Hazards: Water spray may be useful in minimizing vapors and in cooling containers exposed to heat and flame. Avoid spreading burning liquid with water used for cooling purposes.
SECTION 6: ACCIDENTAL RELEASE MEASURES
Steps to be Taken in case Material is Released or Spilled: Use appropriate protective equipment and clothing. Shut off source of leak if it is safe to do so. Dike and contain. Soak up residue with clay, sand or other suitable absorbent material. Place in non-leaking containers and seal tightly for proper disposal. Flush area with water to remove trace residue. Dispose of flush solution in the same manner as leaked liquid.

SECTION 7: HANDLING AND STORAGE
Precautions to be Taken in Handling and Storing: Do not get in eyes or on skin or clothing. Do not ingest. Wash thoroughly after handling. Empty containers retain product residue (liquid and vapor), and can be dangerous. Do not cut, weld, pressurize, braze, solder, grind, drill or expose such containers to heat, sparks or open flames. Prevent build up of vapors to explosive concentration. Keep away from sources of ignition. Keep container closed tightly when not in use. Store in cool, dry, well-ventilated place away from incompatible substances. As with all chemicals, keep out of reach of children.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION
Ventilation: Local exhaust ventilation may be necessary to keep airborne concentrations below the permissible exposure limits (see section 1).
Respiratory Protection: Avoid prolonged or repeated breathing of vapors. If exposure may or does exceed occupational exposure limits (Sec.2) use a NOISH-approved respirator to prevent overexposure (29 CFR 1910.134). Use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors.
Eye Protection: Wear safety glasses or goggles
Protective Gloves: Rubber gloves.
Other Clothing and Protective Equipment: Impervious clothing should be worn as needed. Wash station for flushing eyes and skin should be available in the work area.
Work / Hygienic Practices: Practice safe workplace habits. Minimize body contact with this, as well as all chemicals in general.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES
Appearance and Odor: White colored liquid, mild petroleum odor.
PH: 3.3~3.8
Boiling Point: N/D
Melting Point: N/D
Volatile Organic Content: N/D
VOC Composite Partial Pressure (mm Hg at 20°C): N/D
Percent Volatility (as water): N/D
Vapor Pressure: N/D
Specific Gravity: >1
Solubility in Water: Partially soluble in water
Viscosity: N/D
Vapor Density: N/D
Evaporation Rate: N/D
Photo Chemical Reactivity(SCAQMD Rule 443): None

SECTION 10: STABILITY AND REACTIVITY
Stability: Stable under normal ambient temperature and pressure
Conditions to Avoid: Open flame and excessive heat
Incompatibility: Incompatible materials, organic materials or explosives
Hazardous Decomposition: Carbon dioxide, carbon monoxide, ammonia, nitrogen oxide, nitrous oxide, nitrogen and other materials
Hazardous Polymerization: Has not been reported

MATERIAL SAFETY DATA SHEET  SDP Ultimate Plate Cleaner

SECTION 12:  ECOLOGICAL INFORMATION
No data are available on the aquatic toxicity of this mixture.

SECTION 13:  DISPOSAL CONSIDERATIONS
Waste Disposal Method: Dispose in accordance with Federal, State and Local regulations. Refer to the latest EPA or State Regulations regarding proper disposal.

SECTION 14:  TRANSPORTATION INFORMATION
This product is not a hazardous material for (DOT) shipping
D.O.T. Shipping Name: Not Regulated
IMO Shipping Name: Not Regulated
IATA Shipping Name: Not Regulated

SECTION 15:  REGULATORY INFORMATION
TSCA (USA - Toxic Substance Control Act):
Polyoxyethylene alkyl ether sulfate
Above hazardous component(s) is listed on the US Toxic Substance Control Act Chemical Inventory.
SARA TITLE III (USA - Superfund Amendments and Reauthorization Act):
Ingredients not listed
CERCLA (USA - Comprehensive Response Compensation and Liability Act):
Ingredients not listed
